
User Manual

1. In this homepage, users will see "**Online Price List System**" and "**Quotation Record**".

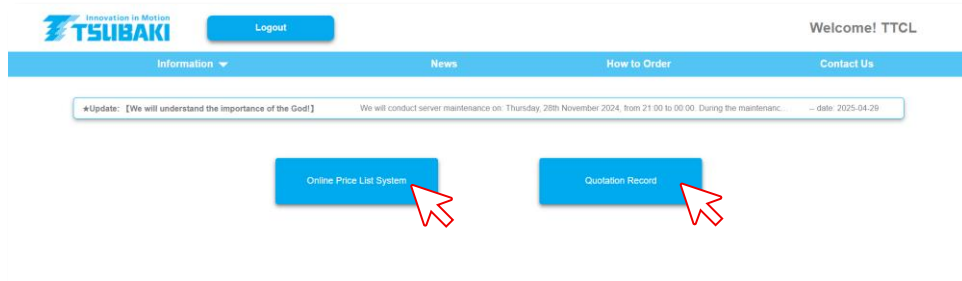

Figure 1 Online Quotation Homepage

1.1 Online Price List System

Click on the "**Online Price List System**" on the homepage. Then the screen will display 2 sections of Product Price list:

- **Online Price List**
- **Cutting & Assembly at TTCL Warehouse**

Figure 2 Online Price List System

1.1.1 Online Price List

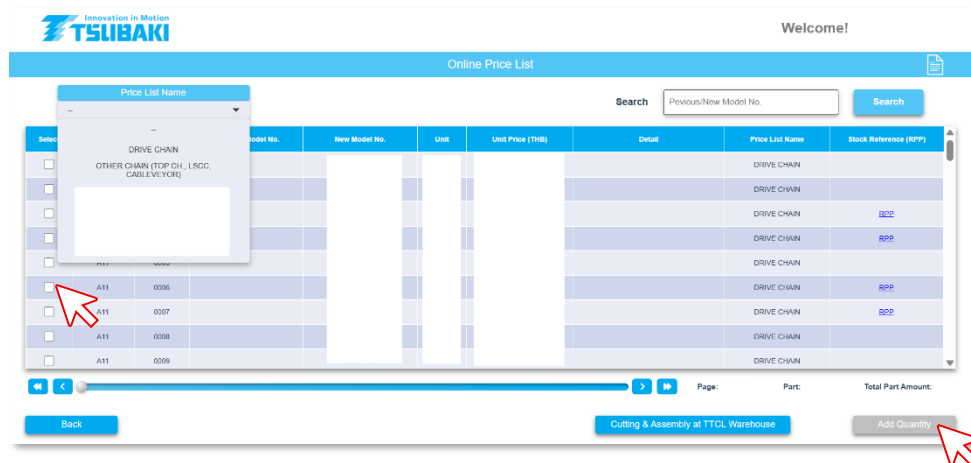

Figure 3 Online Price List

Filtering and Searching function:

- Price List Name (Filtering): Click to select the Price List Name
- Previous/New Model No. (Searching): Enter part of the old model number into the search box and press the search button. This will display a list of candidate products below.

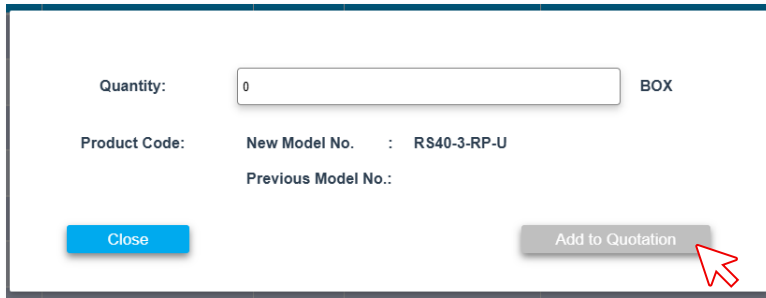

The column name display with a sorting function:

1. Select box: Select only one product at a time for the “Add Quantity” function.
2. Category
3. Part No.
4. Previous Model No.
5. New Model No.
6. Unit
7. Unit Price (THB)
8. Detail
9. Price List Name
10. Stock Reference (RPP): Click 'RPP' to redirect the warehouse website to check the stock status.

Select a product then press “**Add Quantity**”, it will show the pop-up box display by 2 distinct sections: ① For other units, except Link unit ② For Link/FT unit

1.1.1.1 For other units, except Link/FT unit

If the unit is one of these: **Case, FT, PC, Meter, Reel, Set, or Box**, a pop-up window will be presented below. This pop-up box will display the new and previous model number.

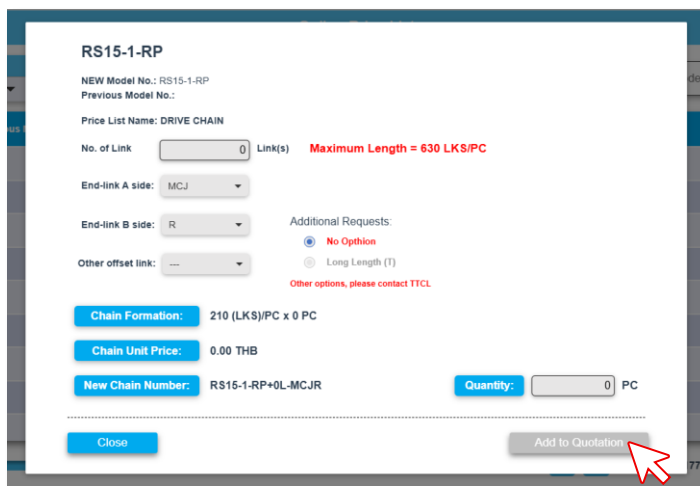

Input quantity and click the 'Add to Quotation' button to add the item to the quotation list.

Then click quotation icon in the top right corner to **Get Quotation** process.

Figure 4 Online Price List - For other units, except Link/FT unit

1.1.1.2 For Link unit

If the unit is **Link**, a pop-up window will be presented below. This pop-up box will display the new and previous model number. There are mandatory actions below.

The mandatory action:

1. Input the Number of links
2. Select End-link A-side and End-link B-side (Other offset link is optional), data will be shown difference depending on Odd or Even Number of links.
3. Select a Chain Option.
 - a. Choose 'No option' if your desired link quantity exceeds the maximum length.
 - b. Choose 'Long Length (T)' otherwise.
4. Input quantity of chain

Figure 5 Online Price List – For Link/FT unit

The information that will automatically show up:

1. Maximum length will show depending on the model number.
2. New Chain Number (complete code) will be generated.

Then click the 'Add to Quotation' button to add the item to the quotation list. Then click quotation icon in the top right corner to **Get Quotation** process.

1.1.2 Cutting & Assembly at TTCL Warehouse

Click on the “Cutting & Assembly at TTCL Warehouse” in Figure 2 Online Price List System. The screen will show as below.

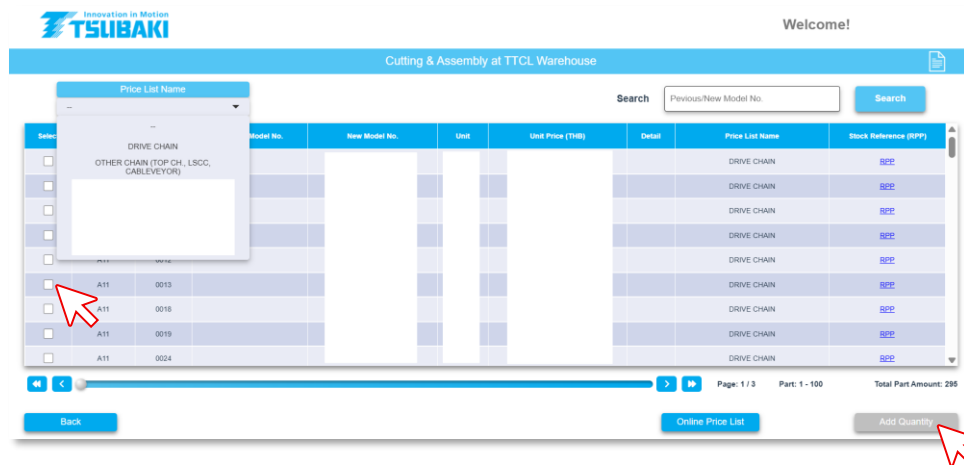

Figure 6 Cutting & Assembly at TTCL Warehouse

Filtering and Searching function:

- Price List Name (Filtering): Click to select the Price List Name
- Previous/New Model No. (Searching): Enter part of the old model number into the search box and press the search button. This will display a list of candidate products below.

The column name display with a sorting function:

1. Select box: Select only one product at a time for the “Add Quantity” function.
2. Category
3. Part No.
4. Previous Model No.

NO.	Type	Previous Model No.	New Model No./New Chain Number	Chain Formation	QTY	Unit	Unit Price	Price	Edit
1	Online Price List		RS25-1-RP-U		120	BOX			Remove
2	Cutting & Assembly	RS25-1-RP-HL-MCJR	RS25-1-RP-HL-MCJR	160 (LKS)PC x 3 PC, 150 (LKS)PC x 2 PC	2	PC			Remove
TOTAL PRICE							THB		Remove All

Add Other Product Get Quotation

Figure 8 Add to quotation – Product lists

Then click 'Get Quotation' to make a PDF or click 'Add Other Product' to select more items.

Once you click "Get Quotation," a pop-up will appear. You'll need to fill in the following information to generate PDF:

- End Username (required)
- Your Name (required)
- Remark (optional)

After entering the details, click Done to create the PDF. If you need to go back and add more information, click Close.

The image shows a web-based form for adding quotation information. It is a light grey rectangular box with a thin border. Inside, there are three labels on the left: 'End User Name:', 'Your Name:', and 'Remark (Optional):'. Each label is followed by an input field. The first two are single-line text boxes, and the third is a larger multi-line text area. At the bottom of the form, there are three buttons: 'Close' (blue with white text), 'Clear All' (blue with white text), and 'Done' (grey with black text).

Figure 9 Add to quotation – Quotation Information

1.2 Quotation Template in PDF

After you enter the End Username, Your name, and Remark on the previous page, a preview of the quotation file will automatically populate. You can then download it as a PDF.

The quotation will include the following information:

- TTCL details: Company name, address, contact, company registration number, and tax ID.
- Distributor's information: Company name, address, and an "Attn" line with your name.
- End user information: The End User Name you entered.
- Quote-specific details: Quote ID, creation date, payment terms, trade terms, delivery mode, validity terms, and currency code. The Quote ID and creation date are automatically generated.

Product details: Model number, quantity, unit, unit price, total amount, chain formation, and remark. The system automatically generates a new chain number (Complete Code) based on the link quantity and type you entered.
